

```
enable_shared_from  
_this< connection< config > >
```

```
graph BT; stub_con[stub_con] --> iostream_con[iostream_con]; iostream_con --> enable_shared_from_this[enable_shared_from_this< connection< config > >];
```

The diagram illustrates a call stack or dependency flow. At the bottom is a grey box labeled 'stub\_con'. A blue arrow points upwards from 'stub\_con' to a white box labeled 'iostream\_con'. Another blue arrow points upwards from 'iostream\_con' to a larger white box at the top containing the code 'enable\_shared\_from\_this< connection< config > >'.

iostream\_con
