

Catch::Session::Session

```
graph LR; A[Catch::Session::Session] --> B[Catch::StartupExceptionRegistry::getExceptions]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'Catch::Session::Session'. The right box is gray with a black border and contains the text 'Catch::StartupExceptionRegistry::getExceptions'.

Catch::StartupExceptionRegistry
::getExceptions
