

BOOST\_AUTO\_TEST\_CASE

```
graph LR; A[BOOST_AUTO_TEST_CASE] --> B[websocketpp::processor<br/>::hybi00::consume]; A --> C[websocketpp::processor<br/>::hybi00::ready];
```

The diagram illustrates a branching structure. A single gray box on the left, labeled 'BOOST\_AUTO\_TEST\_CASE', has two blue arrows pointing to two separate white boxes on the right. The top white box contains the text 'websocketpp::processor' followed by '::hybi00::consume' on a new line. The bottom white box contains the text 'websocketpp::processor' followed by '::hybi00::ready' on a new line.

websocketpp::processor  
::hybi00::consume

websocketpp::processor  
::hybi00::ready
