

BOOST\_AUTO\_TEST\_CASE

BOOST\_AUTO\_TEST\_CASE

fc::message\_buffer  
::write\_index

```
graph LR; A[BOOST_AUTO_TEST_CASE] --> C[fc::message_buffer::write_index]; B[BOOST_AUTO_TEST_CASE] --> C;
```

The diagram illustrates a flow from two test case boxes to a single output box. Two white boxes, each labeled 'BOOST\_AUTO\_TEST\_CASE', are positioned on the left. Two blue arrows originate from the right side of these boxes and point towards a single gray box on the right. The gray box contains the text 'fc::message\_buffer' on the top line and '::write\_index' on the bottom line.
