

testing::Invoke

```
graph LR; A[testing::Invoke] --> B[testing::MakePolymorphicAction<br/>Action];
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text 'testing::Invoke'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'testing::MakePolymorphicAction' on the top line and 'Action' on the bottom line. Both boxes have a thin black border.
