

libraries/fc/vendor  
/websocketpp/websocketpp  
/impl/utilities\_impl.hpp

```
graph TD; A["libraries/fc/vendor  
/websocketpp/websocketpp  
/impl/utilities_impl.hpp"] --> B["algorithm"]; A --> C["string"];
```

The diagram illustrates a dependency relationship. A top-level box contains the file path 'libraries/fc/vendor /websocketpp/websocketpp /impl/utilities\_impl.hpp'. Two blue arrows originate from the bottom of this box and point to two separate boxes below it. The left box is labeled 'algorithm' and the right box is labeled 'string'. This indicates that the header file in the top box depends on the 'algorithm' and 'string' headers.

algorithm

string
