libff::Fp3_model::print

```
graph LR; A["libff::extended_edwards_G2_projective::print"] --> D["libff::Fp3_model::print"]; B["libff::extended_mnt6_G2_projective::print"] --> D; C["libff::Fp6_2over3_model::print"] --> D;
```

The diagram illustrates a dependency or inheritance relationship. Three source functions on the left are connected by blue arrows to a single target function on the right. The target function, 'libff::Fp3_model::print', is highlighted with a grey background, while the source functions have white backgrounds with black borders. The arrows originate from the bottom-right of the first box, the right side of the second box, and the top-right of the third box, all converging on the left side of the target box.
