

sysio::chain::webassembly
::interface::__unordtf2

```
graph LR; A["sysio::chain::webassembly  
::interface::__unordtf2"] --> B["f128_is_nan"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is gray and contains the Rust symbol 'sysio::chain::webassembly::interface::__unordtf2'. The right box is white and contains the function name 'f128_is_nan'.

f128_is_nan
