

chainbase::index_impl
::set_revision

```
graph LR; A["chainbase::index_impl::set_revision"] --> B["chainbase::index_impl::revision"]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text 'chainbase::index_impl' on the first line and '::set_revision' on the second line. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'chainbase::index_impl' on the first line and '::revision' on the second line.

chainbase::index_impl
::revision
