

common.IsInGTestSvn

```
graph LR; A[common.IsInGTestSvn] --> B[common.GetSvnInfo]; B --> C[common.GetCommandOutput];
```

The diagram illustrates a linear sequence of three method calls. The first method, 'common.IsInGTestSvn', is highlighted with a gray background. It is followed by 'common.GetSvnInfo', and then 'common.GetCommandOutput'. Each step is connected to the next by a blue arrow pointing to the right.

common.GetSvnInfo

common.GetCommandOutput
