

sysio::connection::  
check\_heartbeat

sysio::connection::  
handle\_message

sysio::connection::  
send\_time

```
graph LR; A["sysio::connection::check_heartbeat"] --> C["sysio::connection::send_time"]; B["sysio::connection::handle_message"] --> C;
```

The diagram illustrates a dependency or call relationship. Two functions, 'sysio::connection::check\_heartbeat' and 'sysio::connection::handle\_message', are shown on the left. Blue arrows point from each of these functions to a third function, 'sysio::connection::send\_time', which is located on the right. The 'sysio::connection::send\_time' box is shaded gray, while the others are white with black borders.
