

apply\_digest\_mechanism\_init

```
graph LR; A[apply_digest_mechanism_init] --> B[mechanism::mechanism]
```

A diagram showing a call to the function `apply_digest_mechanism_init`. The function name is contained within a gray rectangular box with a black border.

mechanism::mechanism

```
graph LR; A[apply_digest_mechanism_init] --> B[mechanism::mechanism]
```

A diagram showing the target of the function call, which is the `mechanism` object from the `mechanism` namespace. The object name is contained within a white rectangular box with a black border.
