_actions_test::TEST

testing::gmock_generated
_actions_test::Concat9

```
graph LR; A[testing::gmock_generated_actions_test::TEST] --> C[testing::gmock_generated_actions_test::Concat9]; B[testing::gmock_generated_actions_test::TEST] --> C;
```

The diagram illustrates a control flow or data flow between test cases. On the left, there are two white rectangular boxes, each containing the text 'testing::gmock_generated_actions_test::TEST'. Blue arrows point from the right side of each of these boxes to a single gray rectangular box on the right. This gray box contains the text 'testing::gmock_generated_actions_test::Concat9'. The arrows indicate that both test cases lead to the 'Concat9' function or state.
