

get\_return\_code

```
graph LR; A[get_return_code] --> B[fc::exception::code]
```

A diagram showing a mapping from the text 'get\_return\_code' to 'fc::exception::code'. The text 'get\_return\_code' is inside a gray rectangular box with a black border. A blue arrow points from the right side of this box to the left side of another rectangular box. The second box is white with a black border and contains the text 'fc::exception::code'.

fc::exception::code
