

libraries/sys-vm/external
/softfloat/source/8086
/softfloat_raiseFlags.c

```
graph TD; A["libraries/sys-vm/external<br/>/softfloat/source/8086<br/>/softfloat_raiseFlags.c"] --> B["platform.h"]; A --> C["softfloat.h"];
```

The diagram illustrates a file path structure. At the top, a gray box contains the path: `libraries/sys-vm/external`, `/softfloat/source/8086`, and `/softfloat_raiseFlags.c`. Two blue arrows originate from the bottom of this box, pointing to two separate gray boxes below. The left box contains `platform.h` and the right box contains `softfloat.h`.

platform.h

softfloat.h
