

WASM::serializeModule

```
graph LR; A[WASM::serializeModule] --> B[Serialization::InputStream::peek];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'WASM::serializeModule'. The right box is gray with a black border and contains the text 'Serialization::InputStream' on the top line and '::peek' on the bottom line.

Serialization::InputStream
::peek
