_raiseFlags.c

```
graph TD; A["libraries/softfloat  
/source/ARM-VFPv2/softfloat  
_raiseFlags.c"] --> B["platform.h"]; A --> C["softfloat.h"]
```

The diagram illustrates the dependencies of the source file `_raiseFlags.c`. It is located within the directory `libraries/softfloat` and its subdirectory `/source/ARM-VFPv2/softfloat`. Two blue arrows point from the source file box to the header files `platform.h` and `softfloat.h`, indicating that `_raiseFlags.c` depends on these headers.
