

sysio::chain::webassembly  
::interface::\_sysio\_f64\_mul

sysio::vm::binary\_parser  
::parse\_function\_body\_code

f64\_mul

```
graph LR; A["sysio::chain::webassembly::interface::_sysio_f64_mul"] --> C["f64_mul"]; B["sysio::vm::binary_parser::parse_function_body_code"] --> C;
```

The diagram illustrates a mapping or dependency. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'sysio::chain::webassembly::interface::\_sysio\_f64\_mul'. The bottom box contains the text 'sysio::vm::binary\_parser::parse\_function\_body\_code'. On the right, there is a smaller, gray rectangular box with a black border containing the text 'f64\_mul'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both source functions or modules depend on or map to the 'f64\_mul' target.
