

```
sysio::chain::basic  
_type_converter::SYS  
_VM_FROM_WASM
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is gray and contains the text 'sysio::chain::basic', '_type_converter::SYS', and '_VM_FROM_WASM'. The right box is white and contains the text 'sysio::vm::running', '_context< webassembly', '::interface, Interface', and '>::validate_null_terminated' followed by '_pointer' on a new line.

```
sysio::vm::running  
_context< webassembly  
::interface, Interface  
>::validate_null_terminated  
_pointer
```
