testing::internal::TEST

testing::internal::TEST

testing::internal::  
CaptureStdout

```
graph LR; A[testing::internal::TEST] --> D[testing::internal::CaptureStdout]; B[testing::internal::TEST] --> D; C[testing::internal::TEST] --> D;
```

The diagram illustrates a relationship between three test cases and a capture function. On the left, three white rectangular boxes are stacked vertically, each containing the text 'testing::internal::TEST'. On the right, a gray rectangular box contains the text 'testing::internal::CaptureStdout'. Three blue arrows originate from the right side of each 'testing::internal::TEST' box and point towards the left side of the 'testing::internal::CaptureStdout' box, indicating that each test case is associated with or uses the capture function.
