

libff::bn128\_G1::mixed\_add

libff::bn128\_G1::operator+

libff::bn128\_G1::dbl

```
graph LR; A[libff::bn128_G1::mixed_add] --> C[libff::bn128_G1::dbl]; B[libff::bn128_G1::operator+] --> C;
```

The diagram illustrates a relationship between three functions. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'libff::bn128\_G1::mixed\_add' and the bottom box contains 'libff::bn128\_G1::operator+'. On the right, there is a gray rectangular box with a black border containing the text 'libff::bn128\_G1::dbl'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both 'mixed\_add' and 'operator+' functions utilize or point to the 'dbl' function.
