

TEST

```
graph LR; TEST[TEST] --> TestEventListenersAccessor[testing::internal::TestEventListenersAccessor::EventForwardingEnabled];
```

A diagram illustrating a dependency. On the left, a gray rectangular box contains the text "TEST". A blue arrow points from this box to a larger white rectangular box on the right. The white box contains the text "testing::internal::TestEventListenersAccessor::EventForwardingEnabled".

testing::internal::  
TestEventListenersAccessor  
::EventForwardingEnabled
