

testing::Test

```
graph BT; A["TEST_F_before_TEST_in_same_test_case"] --> B["testing::Test"]
```

The diagram illustrates an inheritance relationship. A light gray box at the bottom contains the text "TEST\_F\_before\_TEST\_in\_same\_test\_case". A blue arrow points vertically upwards from this box to a white box at the top with a black border, which contains the text "testing::Test".

TEST\_F\_before\_TEST
