

fc::sha1::encoder::put

```
graph LR; A[fc::sha1::encoder::put] --> B[fc::sha1::encoder::write];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is gray and contains the text 'fc::sha1::encoder::put'. The right box is white and contains the text 'fc::sha1::encoder::write' on two lines.
