

Catch::LeakDetector  
::~~LeakDetector

Catch::Session::~~Session

Catch::cleanUp

```
graph LR; A[Catch::LeakDetector  
::~~LeakDetector] --> C[Catch::cleanUp]; B[Catch::Session::~~Session] --> C;
```

The diagram illustrates two destructors, `Catch::LeakDetector::~~LeakDetector` and `Catch::Session::~~Session`, both of which call the `Catch::cleanUp` function. The destructors are represented by white boxes with black borders, while the `Catch::cleanUp` function is represented by a gray box with a black border. Blue arrows indicate the call from each destructor to the `Catch::cleanUp` function.
