

testing::internal::TEST

testing::internal::TEST

testing::internal::
CaptureStderr

```
graph LR; A[testing::internal::TEST] --> C[testing::internal::CaptureStderr]; B[testing::internal::TEST] --> C;
```

The diagram illustrates a relationship between two test cases and a stderr capture function. On the left, there are two identical white rectangular boxes, each containing the text 'testing::internal::TEST'. Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right. This gray box contains the text 'testing::internal::CaptureStderr' on two lines. The arrows indicate that both test cases are associated with or utilize the 'CaptureStderr' functionality.
