

fc::to_variant

```
graph LR; A[fc::to_variant] --> B[fc::float64_to_double]; B --> C[memcpy];
```

A flowchart illustrating a sequence of three operations. The first operation, 'fc::to_variant', is contained within a gray rectangular box. A blue arrow points from this box to the second operation, 'fc::float64_to_double', which is in a white rectangular box with a black border. Another blue arrow points from the second box to the third operation, 'memcpy', also in a white rectangular box with a black border. The boxes are arranged horizontally from left to right.

fc::float64_to_double
