

testing::internal::
DefaultGlobalTestPartResult
Reporter::ReportTestPartResult

```
graph LR; A[testing::internal::DefaultGlobalTestPartResultReporter::ReportTestPartResult] --> B[testing::internal::UnitTestImpl::current_test_result]
```

A diagram showing a call from the `testing::internal::DefaultGlobalTestPartResultReporter::ReportTestPartResult` method to the `testing::internal::UnitTestImpl::current_test_result` variable. The call is represented by a blue arrow pointing from the left box to the right box.

testing::internal::
UnitTestImpl::current
_test_result
