

testing::internal::
PrettyUnitTestResultPrinter
::OnTestIterationEnd

testing::internal::
FinalSuccessChecker
::TearDown

testing::UnitTest::
Passed

```
graph LR; A["testing::internal::  
PrettyUnitTestResultPrinter  
::OnTestIterationEnd"] --> D["testing::UnitTest::  
Passed"]; B["testing::internal::  
FinalSuccessChecker  
::TearDown"] --> D;
```

The diagram illustrates a sequence of events in a testing framework. Two internal functions, 'testing::internal::PrettyUnitTestResultPrinter::OnTestIterationEnd' and 'testing::internal::FinalSuccessChecker::TearDown', both point via blue arrows to a final state represented by a grey box labeled 'testing::UnitTest::Passed'.
