testing::gtest_printers
_test::TEST

testing::gtest_printers
_test::Foo::MyMethod

```
graph LR; A[testing::gtest_printers_test::TEST] --> C[testing::gtest_printers_test::Foo::MyMethod]; B[testing::gtest_printers_test::TEST] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two white boxes with black borders, each containing the text 'testing::gtest_printers_test::TEST'. On the right, there is a single gray box with a black border containing the text 'testing::gtest_printers_test::Foo::MyMethod'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating a mapping or relationship between the two 'TEST' identifiers and the 'Foo::MyMethod' identifier.
