A diagram illustrating a transformation. On the left, a gray rectangular box contains the text `sysio::chain::wasm`, `_ops::field_specific`, and `_params::to_string` stacked vertically. A blue arrow points from this box to a white rectangular box on the right. The white box contains the text `sysio::chain::wasm` and `_ops::to_string` stacked vertically. The transformation appears to be removing the `field_specific` and `_params` components from the original path.
