

utf8::unchecked::utf16to8

utf8::unchecked::utf32to8

utf8::unchecked::append

```
graph LR; A[utf8::unchecked::utf16to8] --> C[utf8::unchecked::append]; B[utf8::unchecked::utf32to8] --> C;
```

The diagram illustrates a functional composition or dependency. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'utf8::unchecked::utf16to8' and the bottom box contains 'utf8::unchecked::utf32to8'. On the right, there is a single gray rectangular box containing the text 'utf8::unchecked::append'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both functions on the left serve as inputs or arguments to the 'append' function on the right.
