picojson::default_parse
_context::parse_string

picojson::value::get

```
graph LR; A[picojson::default_parse_context::parse_array_item] --> D[picojson::value::get]; B[picojson::default_parse_context::parse_object_item] --> D; C[picojson::default_parse_context::parse_string] --> D;
```

The diagram illustrates a dependency or call relationship. Three source functions, each in a white box with a black border, are located on the left. Blue arrows point from each of these source functions to a single target function, 'picojson::value::get', which is in a gray box on the right. The target function is the common destination for all three arrows.
