```

The diagram illustrates a mapping from three individual test cases to a single target. On the left, three white rectangular boxes are stacked vertically. Each box contains the text 'gtest_json_output_unittest.' followed by a specific test method name. Blue arrows originate from the right side of each of these three boxes and point towards a single gray rectangular box on the right. This gray box also contains the text 'gtest_json_output_unittest.' followed by a common suffix '_TestJsonOutput'. The arrows indicate that the three test cases on the left are all associated with or mapped to the single target on the right.
