

ykyh\_get\_version

```
graph LR; A[ykyh_get_version] --> B[memset]
```

A diagram showing a call from the function `ykyh_get_version` to the function `memset`. The `ykyh_get_version` box is shaded gray, and the `memset` box is white. A blue arrow points from the right side of the `ykyh_get_version` box to the left side of the `memset` box.
