

A diagram showing a dependency relationship between two file paths. The top box, which has a gray background, contains the path `libraries/fc/include` and lists three files: `/fc/crypto/webauthn_json`, `/thirdparty/gtest/googmock`, and `/src/gmock-internal-utils.cc`. The bottom box, which has a white background, contains the same path and lists the same three files, but with `/src/gmock-all.cc` instead of `/src/gmock-internal-utils.cc`. A blue arrow points from the bottom box to the top box, indicating that the top box depends on the bottom box.

```
libraries/fc/include  
/fc/crypto/webauthn_json  
/thirdparty/gtest/googmock  
/src/gmock-internal-utils.cc
```

```
libraries/fc/include  
/fc/crypto/webauthn_json  
/thirdparty/gtest/googmock  
/src/gmock-all.cc
```
