

`pump.Output.Append`

`pump.Output.GetLastLine`

`fc::fixed_string::string`

```
graph LR; A[pump.Output.Append] --> C[fc::fixed_string::string]; B[pump.Output.GetLastLine] --> C;
```

The diagram illustrates a common return type for two methods. On the left, two white rectangular boxes with black borders contain the method names `pump.Output.Append` and `pump.Output.GetLastLine`. On the right, a gray rectangular box with a black border contains the return type `fc::fixed_string::string`. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both methods return this type.
