

sysio::chain::transaction
_header

```
graph BT; A[sysio::chain::signed_transaction] --> B[sysio::chain::transaction]; B --> C[sysio::chain::transaction_header];
```

The diagram illustrates a three-level inheritance hierarchy. At the base is a white box labeled 'sysio::chain::signed_transaction'. A blue arrow points upwards from this box to a white box labeled 'sysio::chain::transaction'. Another blue arrow points upwards from the middle box to a gray box labeled 'sysio::chain::transaction_header'.
