

testing::internal::
GTestLog::GTestLog

testing::internal::
GTestLog::~~GTestLog

testing::internal::
GTestLog::GetStream

```
graph LR; A[testing::internal::GTestLog::GTestLog] --> C[testing::internal::GTestLog::GetStream]; B[testing::internal::GTestLog::~~GTestLog] --> C;
```

The diagram illustrates a dependency or call relationship. Two source functions, 'testing::internal::GTestLog::GTestLog' and 'testing::internal::GTestLog::~~GTestLog', are shown in white boxes on the left. Blue arrows point from each of these boxes to a single target function, 'testing::internal::GTestLog::GetStream', which is shown in a gray box on the right.
