

base::transport\_config

```
graph BT; A[deflate_config::transport_config] --> B[base::transport_config];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray rectangular box containing the text 'deflate\_config::transport\_config'. At the top is a white rectangular box with a black border containing the text 'base::transport\_config'. Two blue arrows originate from the top edge of the gray box and point upwards towards the bottom edge of the white box, indicating that 'deflate\_config::transport\_config' inherits from 'base::transport\_config'.
