

from_softfloat64

```
graph LR; A[from_softfloat64] --> B[memcpy]
```

A diagram showing a call from the function `from_softfloat64` to the function `memcpy`. The `from_softfloat64` node is a gray rectangle on the left, and the `memcpy` node is a white rectangle on the right. A blue arrow points from the right side of the `from_softfloat64` node to the left side of the `memcpy` node.

memcpy
