

BOOST_AUTO_TEST_CASE

fc::get_index

```
graph LR; A[BOOST_AUTO_TEST_CASE] --> B[fc::get_index]; B --> B;
```

The diagram illustrates a call from the `BOOST_AUTO_TEST_CASE` macro to the `fc::get_index` function. A straight blue arrow points from the macro to the function. Additionally, a curved blue arrow loops back from the function to itself, indicating a recursive or self-referential call.
