

```
sysio::chain::basic  
_type_converter::SYS  
_VM_FROM_WASM
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is gray and contains the text 'sysio::chain::basic', '\_type\_converter::SYS', and '\_VM\_FROM\_WASM'. The right box is white and contains the text 'sysio::vm::running', '\_context< webassembly', '::interface, Interface', and '>::validate\_pointer'.

```
sysio::vm::running  
_context< webassembly  
::interface, Interface  
>::validate_pointer
```
