

fc::from_variant

fc::gelf_appender::
initialize

fc::ip::endpoint::from
_string

```
graph LR; A[fc::from_variant] --> C[fc::ip::endpoint::from_string]; B[fc::gelf_appender::initialize] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two white boxes with black borders. The top box contains the text 'fc::from_variant'. The bottom box contains the text 'fc::gelf_appender::' on the first line and 'initialize' on the second line. On the right, there is a single gray box with a black border containing the text 'fc::ip::endpoint::from' on the first line and '_string' on the second line. Two blue arrows point from the right side of the two white boxes to the left side of the gray box.
