

Catch::Colour::Colour

Catch::Colour::~~Colour

Catch::Colour::use

```
graph LR; A[Catch::Colour::Colour] --> C[Catch::Colour::use]; B[Catch::Colour::~~Colour] --> C;
```

The diagram illustrates a relationship between three functions. On the left, two white rectangular boxes with black borders contain the function names 'Catch::Colour::Colour' (top) and 'Catch::Colour::~~Colour' (bottom). On the right, a gray rectangular box with a black border contains the function name 'Catch::Colour::use'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'Catch::Colour::Colour' and 'Catch::Colour::~~Colour' are linked to or point to 'Catch::Colour::use'.
