

libraries/sys-vm/external  
/Catch2/include/internal  
/catch\_singletons.cpp

```
graph TD; A["libraries/sys-vm/external  
/Catch2/include/internal  
/catch_singletons.cpp"] --> B["catch_singletons.hpp"]; A --> C["vector"];
```

The diagram illustrates a file path at the top, which then branches into two arrows pointing to two separate files below. The top box is grey, while the bottom boxes are white with grey borders.

catch\_singletons.hpp
