

operator<<

fc::to_variant

fc::float64_to_double

```
graph LR; A[operator<<] --> C[fc::float64_to_double]; B[fc::to_variant] --> C;
```

The diagram illustrates a mapping or relationship between two source functions and a target function. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'operator<<' and the bottom box contains 'fc::to_variant'. On the right, there is a single gray rectangular box with a black border containing the text 'fc::float64_to_double'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'operator<<' and 'fc::to_variant' are associated with or map to 'fc::float64_to_double'.
