

EncodedStreamTest::
TestAutoUTFOutputStream

EncodedStreamTest::
TestEncodedOutputStream

EncodedStreamTest::
CompareBufferFile

```
graph LR; A[EncodedStreamTest::TestAutoUTFOutputStream] --> C[EncodedStreamTest::CompareBufferFile]; B[EncodedStreamTest::TestEncodedOutputStream] --> C;
```

The diagram illustrates a flow where two test methods, 'TestAutoUTFOutputStream' and 'TestEncodedOutputStream', both point to a common method 'CompareBufferFile'. The source boxes are white with black borders, while the destination box is solid gray. Blue arrows indicate the direction of the flow from left to right.
