

fc::http\_client\_impl  
::create\_raw\_connection

fc::http\_client\_impl  
::create\_ssl\_connection

fc::http\_client\_impl  
::sync\_connect\_with\_timeout

```
graph LR; A["fc::http_client_impl::create_raw_connection"] --> C["fc::http_client_impl::sync_connect_with_timeout"]; B["fc::http_client_impl::create_ssl_connection"] --> C;
```

The diagram illustrates a function call relationship. On the left, two white rectangular boxes with black borders contain the function names `fc::http_client_impl::create_raw_connection` and `fc::http_client_impl::create_ssl_connection`. On the right, a gray rectangular box with a black border contains the function name `fc::http_client_impl::sync_connect_with_timeout`. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both `create_raw_connection` and `create_ssl_connection` call `sync_connect_with_timeout`.
