

internal::Schema::EndValue

```
graph LR; A[internal::Schema::EndValue] --> B[not_];
```

A diagram showing a mapping from the text 'internal::Schema::EndValue' to 'not_'. The text 'internal::Schema::EndValue' is contained within a gray rectangular box. A blue arrow points from this box to a white rectangular box containing the text 'not_'. Both boxes have a thin black border.

not_
